

TIM Report Portal

The Together in Mission and Called to Renew parish report portal can be found on togetherinmission.org under the “parish resources” tab. In order to login to the portal you will need access to your parish specific ACES email and password (example: parish-123@la-archdiocese.org), personal ACES emails will not work. You will also need your TIM password which the Together in Mission office could provide. If you need help accessing the parish ACES email, there is a link and a phone number on the login page where you can request assistance.

The Together in Mission office does not have access to parish ACES passwords. If you try to login unsuccessfully, you will receive an error message telling you specifically if your ACES credentials are incorrect or if the TIM password is incorrect. The reports are updated every other week.
